Phone: 9628392986 | Email: kk0521359@gmail.com LinkedIn: <https://www.linkedin.com/jobs/> | GitHub: <https://github.com/>

## **Professional Summary**

Highly motivated AI/ML Engineer with hands-on experience in building and deploying machine learning models, data pipelines, and deep learning architectures. Strong problem-solving ability with a focus on scalable solutions.

## **Academic Profile**

Lovely Professional University — MCA (AI & ML), 2025 - Present

## **Skills**

- Programming: Python, C++, SQL
- ML/DL: Scikit-learn, TensorFlow, PyTorch, Keras
- Data: Pandas, NumPy, Matplotlib
- Tools: Git, Docker, Linux, Jupyter Notebook
- Concepts: Regression, Classification, NLP, CNNs, RNNs, Transformers

## **Projects**

- Food Website — A responsive web application for ordering food online.
- Dice Game — A simple probability-based interactive game built using programming logic.
